

AIRA JOSH C. YNTE

Frontend Designer & Developer · UI/UX & Web Applications

08airajosh@gmail.com | linkedin.com/in/aira-josh-ynnte | Metro Manila, Philippines

PROFESSIONAL SUMMARY

Creative and detail-oriented Computer Engineering graduate (Expected July 2026) specializing in frontend design and development. Passionate about bridging the gap between pixel-perfect design aesthetics and performant client-side architecture using React, TypeScript, Tailwind CSS, Figma, and Adobe Creative Suite. Adept at transforming high-fidelity wireframes into interactive, accessible, and responsive user experiences.

EXPERIENCE

Freelance Frontend Designer & Developer

2023 – Present

Various Clients

- Designed and implemented responsive, high-performance web applications using React/Vite, Tailwind CSS, and TypeScript.
- Integrated complex interactive charts and graphs using Recharts, visualizing high-density telemetry and cashflow runtimes.
- Built secure browser-side Web3 signing modules using EIP-1193 MetaMask standards to manage client-side transactions safely.
- Collaborated directly with business stakeholders to translate Figma design mockups into pixel-perfect, accessible React interfaces.

IC Design Intern (Design & Verification)

2025

Xinyx Design Consultancy and Services Inc.

- Designed and verified peripheral interfaces (AMBA APB3) using SystemVerilog, analyzing waveforms and simulation logs.

EDUCATION

Bachelor of Science in Computer Engineering (Magna Cum Laude)

2022 – July 2026 (Expected)

Colegio de Muntinlupa — Muntinlupa City, Metro Manila, Philippines

- Specializing in Software Architecture & System Design; coursework in database design and computer network structures.

KEY PROJECTS

The Safehouse — Community Showcase & Pitch Site

2025 – Present

- Built interactive 3D valley journey scene in React Three Fiber with procedural terrain rendering and camera path tracking.
- Wired GSAP timelines and ScrollTrigger to Lenis smooth scroll, choreographing 13 narrative scroll sections.
- Implemented accessibility-first MotionModeContext to respect user motion preferences, providing static CSS fallbacks.

Fehuvia — Open Finance B2B SME Treasury Workstation

2026

- Designed a modern, responsive glassmorphic dashboard in React 19 and Tailwind CSS, utilizing custom theme-context models.
- Integrated complex interactive charts and graphs using Recharts, visualizing cashflow runtimes and runway metrics.
- Programmed browser-side Web3 signing modules using EIP-1193 MetaMask standards to preserve zero-custody on transactions.

Plant.io — 8-Bit IoT Nursery Dashboard (Freelance)

2025

- Created a Y2K/8-bit retro dark-mode user interface in Flutter using Press Start 2P typography and custom pixel-art assets.
- Formatted real-time data plots with `fl_chart`, implementing responsive line, bar, and pie charts for sensor trends.
- Optimized local state updates and transition animations to keep user commands responsive, with command latency under 150ms.

Student Consultation System (Freelance Project)

2025

- Designed role-based dashboard layouts in React/Vite supporting distinct interactive views for students, professors, and admins.
- Formulated a highly interactive consultation scheduling calendar, featuring custom grid structures and drag-and-drop actions.
- Built the user interface for real-time messaging, including attachments drawers, image crop-and-previews, and status indicators.

SKILLS & COMPETENCIES

UI/UX & Design Tools: Figma, Adobe Suite (Photoshop, Illustrator, After Effects, Premiere Pro), Rive, Wireframing, High-Fidelity Prototyping, Visual Assets Design

Frontend Development: React, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Three.js, `@react-three/fiber`, Framer Motion, GSAP, Flutter, Recharts, `fl_chart`

Languages & Databases: TypeScript, JavaScript, SQL (PostgreSQL, MySQL, SQLite), Python, C/C++, Node.js, Express, MongoDB, Firebase (Firestore, Realtime DB, Cloud Functions)

Tools & Deployments: Git, Vite, Docker, GitHub Actions, Vercel, Render, REST APIs, JWT, MetaMask, Postman

Soft Skills: Client communication, database planning, structured troubleshooting, cross-functional collaboration, technical layout

CERTIFICATIONS & TRAINING

Learn React (Scrimba) · Learn TailwindCSS (Scrimba) · The AI Engineer Path (Scrimba) · Basic Web Development Workshop (Zuitt) · On-the-Job Training Certificate (Xinyx Design Engineering) · Understanding EDR Cybersecurity
